

LEADING AI TRANSFORMATION

CMI LEVEL 5 DIPLOMA IN LEADING AI TRANSFORMATION

A practical qualification for managers who want to lead the planning and implementation of AI initiatives, drive innovation, manage change and build AI-confident teams to create organisational value.

IDEAL FOR ASPIRING AND CURRENT MANAGERS

Managers and team leaders who want to lead AI adoption and transformation initiatives, improve operational performance and create value for their organisation.

WHAT YOU'LL LEARN

Build the knowledge and practical skills to lead AI transformation, align initiatives with business strategy, manage change effectively and develop AI-enabled teams that drive innovation, efficiency and sustainable growth.

KEY AREAS OF STUDY

AI strategy and business alignment
Develop and implement AI strategies that align with organisational goals and deliver measurable value.

AI innovation and implementation
Identify opportunities for AI innovation and manage the design and implementation of AI solutions.

Leading change and transformation
Plan and lead change initiatives to embed AI solutions and drive organisational transformation.

AI and people development
Build AI confidence and capability across teams and develop a culture of continuous learning.

Data-driven decision making
Use data, analytics and AI insights to make informed decisions and improve performance.

Operational improvement
Use AI technologies to streamline processes, enhance efficiency and deliver operational excellence.

Ethics, governance and responsible AI
Understand ethical considerations, data privacy, bias and governance to ensure responsible AI adoption.

Stakeholder engagement
Communicate the value of AI initiatives and build support across stakeholders and organisations.
