

STRATEGIC LEADERSHIP OF AI CMI LEVEL 7 DIPLOMA IN STRATEGIC LEADERSHIP OF AI

A forward-thinking qualification for leaders who want to shape and lead AI strategy at the highest level, driving innovation, ethical adoption and long-term organisational advantage in an AI-powered world.

IDEAL FOR EXPERIENCED LEADERS AND STRATEGISTS

Senior managers and leaders who want to lead the development and implementation of AI strategy to create value, drive innovation and transform organisations responsibly.

WHAT YOU'LL LEARN

Develop advanced strategic leadership capabilities to harness AI ethically and effectively, align AI strategy with business goals, lead organisational transformation and create sustainable, data-driven value in a rapidly evolving AI landscape.

KEY AREAS OF STUDY

AI strategy and leadership

Develop and lead AI strategy that aligns with organisational objectives and delivers measurable value.

AI governance and ethics

Manage ethical, legal and regulatory considerations and ensure responsible AI adoption.

Data and AI-driven decision making

Leverage data, analytics and AI technologies to inform strategic decisions and improve performance.

Innovation and change leadership

Drive innovation, manage change and build an AI-ready culture across the organisation.

Risk and performance management

Identify, assess and manage AI-related risks to ensure resilience, security and sustainable outcomes.

Future-focused leadership

Anticipate AI trends and emerging technologies to shape the future and maintain competitive advantage.
